**No need to worry about
making your loan payment this
summer . . . just skip it!
Call us to see if you qualify.**

This form may need to be in your branch 6 weeks ahead, depending on your payment method. If you make your loan payments through payroll deduction or money mover (which will still be transferred) you may withdraw the full amount of that loan payment after the payment due date. For example, if your payment is due on July 2, you can withdraw the entire loan payment any time after July 2. You cannot withdraw a portion of it each pay period leading up to July 2. Your Skip-A-Pay privileges may be canceled if you do not adhere to the above guidelines. Choosing to skip a payment will extend the term of your loan to compensate for the deferral. Your regular monthly payment will resume the following due date. Payments on your first loan payment, QuickLoans, home improvement loans, loans secured by real estate, leases, balloon payment loans, MasterCard payments, and accounts which are delinquent cannot be skipped. A maximum of 8 skips per life of loan are allowed. Make sure that your payments restart on their proper date to avoid any delinquency problems. Skipping payments may affect your GAP insurance coverage.
